

MISSION STATEMENT

The Rend Lake Conservancy District will be the main supplier of potable water for southern Illinois communities and will do this in a safe and cost-effective manner. In addition, the Rend Lake Conservancy District will become a premier tourist attraction in southern Illinois.

INTRODUCTION

This budget document was prepared to enable the Rend Lake Conservancy District's Board of Trustees, customers, residents, investors, creditors, and other governmental stakeholders to better understand the District, its services, and its financial and capital plans. This budget is prepared to provide the public maximum transparency in the operations, services, and future financial plans of the District.

READER'S GUIDE TO UNDERSTANDING THIS BUDGET

Overview

A government budget containing unique terminology, forms, charts, and organization can challenge the user. The main objective of this document is to communicate this information to the reader clearly and understandably. This guide has been included to help the reader understand the organization of this document and to help inform the reader where to look for certain types of information.

Table of Contents

Helps the reader easily navigate through the budget.

Introduction

Includes information about the RLCD such as its history, leadership, organizational structure, and services provided.

Budget Summaries

This section contains information on RLCD's financial structure and policies, major revenue sources, projected staffing levels, expenditures to include various fund balances.

General Fund

The general fund accounts for basic services to include administration, legal counsel, interest income from investments, and all building and facility maintenance.

Proprietary Funds

The proprietary funds include the water & sewer fund. The water & sewer fund includes the treatment and distribution of potable water, as well as sanitary sewer services.

Special Revenue Funds

Accounts for all revenues derived from, and all related costs incurred, in connection with the various recreation services offered by RLCD. Recreation offerings include golf, lodging, and restaurant.

Capital Improvement Plan (CIP)

The CIP is a 5-year plan that provides the reader with a roadmap of future infrastructure investments and the costs associated with implementing the plan. Also included are funding sources, such as grants, loans, or bonds, or whether the project will be funded with available fund balances. Also included are project descriptions, costs, and justifications for the work.

Five-Year Budget Projections

This section provides the reader with the longer-term outlook of the financial projections for all of the RLCD's funds. These projections should only be used as a guide rather than a definite statement of financial trends and stability, however it's important to include these projections when planning future District needs.

Glossary of Terms

Helps the reader understand financial and accounting terms that they may not be familiar with.

RLCD GENERAL INFORMATION & BACKGROUND

Aerial image looking south, of golf clubhouse, course, with Rend Lake in the background.

LEADERSHIP

The governing body for Rend Lake Conservancy District is a seven-member Board of Trustees. Each member is appointed to a five-year term by a local government from within the Conservancy District taxing boundary. A list of the Trustees, the government entity that appointed them, and when their term expires is listed below along with any office they hold on the Board. The RLCD Board's legal counsel is Jonathan Cantrell of Hart, Cantrell & Thompson of Benton, Illinois.

Michael Warren, President - is an at-large member appointed by the Jefferson County Board. His term expires on July 1, 2025.

Nicholas LeMay. Vice-President - is appointed by the City of Mt. Vernon. His term expires on July 1, 2026.

Robert C. (Buddy) Walton, Jr., Secretary - is an at-large member appointed by the Franklin County Board. His term expires on July 1, 2027.

Ernest Collins is the Mt. Vernon representative appointed by the Jefferson County Board. His term expires on July 1, 2029.

Paul Lawrence is appointed by the City of West Frankfort. His term expires on July 1, 2026.

Dr. John Spence, DVM – is the Benton and West Frankfort representative appointed by the Franklin County Board. His term expires on July 1, 2027.

Todd Thomas is appointed by the City of Benton. His term expires on July 1, 2028.

The Board of Trustees appoints a General Manager who serves as the chief executive officer of the RLCD and whose primary goal is to ensure that RLCD Board policies are implemented and adhered to. The General Manager appoints the various department managers who manage the day to-day operations of the District.

RLCD ORGANIZATIONAL CHART

OUR HISTORY

The Rend Lake Conservancy District (RLCD) is located in Franklin and Jefferson Counties, an area that was developed largely as a result of the coal mining industry. Combined, these counties produced 221,954 tons of coal between 1890 and 1900. Between 1911 and 1920, these two counties produced 80,666,484 tons of coal. Although coal production expanded rapidly, the demand was seasonal and by the 1920's the demand for coal began to decline. Since the area was almost entirely dependent on the mining and farming industries, and with coal production dropping, many residents found it necessary to move elsewhere in order to maintain employment. This trend continued until the early 1960's when Southern Illinois University and new Federal redevelopment programs began to stimulate economic growth in the area which resulted in the area's first net in-migration, regaining approximately 41,000 people.

For decades the land surrounding Rend Lake was plagued by lack of water despite plentiful rainfall, and its location between two of the nation's great rivers, the Mississippi and Ohio. This was due to the land's impermeable clay soils which were incapable of soaking in rain, making ground water scarce. By the 1950's, the onset of an economically devastating three-year drought took its toll on the region. When water supplies reached a critical low, waterworks operators from towns in the drought area met to find a solution to their problems. Their meeting resulted in the formation of an association dedicated to pursue the construction of a large water supply lake. The proposed lake

was named Rend, after a nearby ghost town (Rend City) founded by Colonel William Rend, a local coal mine operator.

The newly formed Rend Lake Association made numerous attempts to raise adequate funding for their project. However, the financial burden of building a large, man-made lake was much too large for local communities to shoulder. As luck would have it, an association member came across a state conservancy law, drafted in 1925, which had never been used. Traditionally, conservancy districts are developed out of the need for collective action to control floods. They allow citizens within a watershed (the region drained by a river) to create a local unit of government to control floodwater. Their purpose was expanded during drought years to include storage of flood-waters in man-made reservoirs.

In the spring of 1954, the Big Muddy Watershed, through the efforts of the Rend Lake Association, petitioned for an election referendum the following year. In 1955, the proposal passed, and the Rend Lake Conservancy District became the first in Illinois. Under the

Conservancy District Act, RLCD has powers similar to municipalities, including the right of eminent domain. They have the power to issue bonds, assess taxes, and enter into contracts

with other governmental agencies. The State of Illinois funded preliminary engineering studies, land acquisition, and highway relocation while numerous state agencies, including two universities, worked to advance the planning portion of the project.

By 1963, the conservancy district, the state of Illinois, and the federal government jointly entered into a contract for a feasibility study of an inter-city water system which was incorporated into plans for the lake's development. In November 1967, the U.S. Corps of Engineers allowed contracts for construction of the Rend Lake Dam and Reservoir. The federal act that allowed its construction also called for recreational development around the lake which has grown to include a championship 27-hole golf course, lodging, and a modern shooting complex. Such amenities in a sparsely populated region resulted in a unique combination of local, state, and federal management, which is the backbone of Rend Lake's success and its diversity.

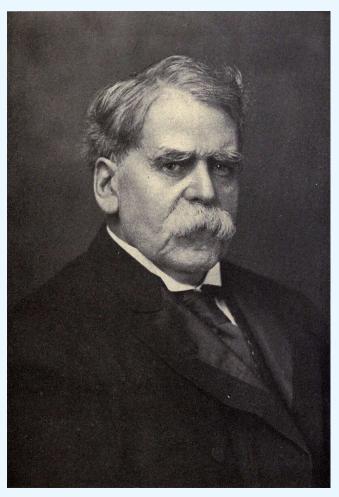

The state's major contribution to Rend Lake lies in its 3,300 acre Wayne Fitzgerrell State Park and its numerous campgrounds, from primitive to paved, with electric hook-ups, and walking and biking trails. This park is also an excellent area for hunting, fishing, boating, swimming, camping and picnicking. The park also operates a hunting preserve and premiere state dog field trial facility.

The Illinois Department of Natural Resources and the U.S. Army Corps of Engineers play an important role in managing both public hunting and non-hunting wildlife areas at Rend Lake. The state maintains a goose refuge and two nature preserves with provisions for crop planting to feed upland game. About 5,000 acres of prime waterfowl habitat is also managed by the state.

The U.S. Army Corps of Engineers is responsible for the management of Rend Lake's 18,900 acres of water and 20,000 acres of its surrounding lands. Their natural resource management personnel strive to provide high quality outdoor recreational lands and waters for fish and wildlife. A comprehensive wildlife management program provides habitat for waterfowl, upland game and non-game species. In addition to their obvious interest in wildlife management, the Corps of Engineers manages over 800 campsites, two public beaches, hiking and nature trails, lakeside picnicking facilities, and a marina on Rend Lake. The Dale Miller Youth area is available for group camping and a Corps' Visitors Center provides many informative exhibits and activities. An amphitheater hosts a variety of outdoor entertainment.

Today, the RLCD serves as the major water utility in the southern Illinois region. The RLCD has 35 wholesale customers and over 1,300 retail customers which provides water to nearly 300,000 people daily, throughout seven counties and over 60 communities. The water plant located in Benton, Illinois at the North Marcum area is capable of treating 27 million gallons of water per day making the RLCD one of the main economic development assets in the southern Illinois region.

WHAT'S IN THE NAME?

William Patrick Rend was born in County Leitrim, Ireland, in 1840 and was brought to the United States by his parents when he was 7 years old. The Rends settled at Lowell, Massachusetts, where their son was educated. He taught school in Maryland until the outbreak of the Civil War when he enlisted in the Fourteenth New York Volunteers, serving for four years ultimately achieving the rank of Colonel. Assigned to the Army of the Potomac, Rend took part in the battles of Hanover Courthouse, second Bull Run, Mechanicsville, Gaines' Mill, Malvern Hill, Antietam, Fredericksburg, Chancellorsville, and Yorktown where he was the first man wounded in battle. Following the war he moved west and invested in coal mines in Ohio and Indiana and became very wealthy. The output of his mines was over a million tons a year and he owned 2,000

freight cars used in his coal business.

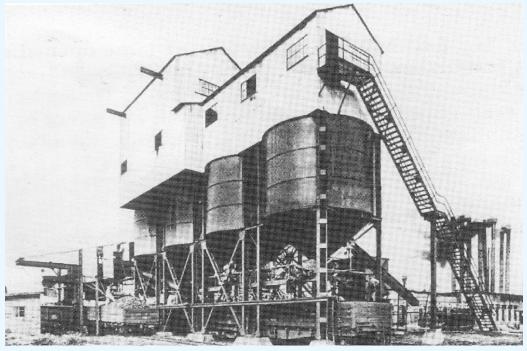

In 1880, Rend's mining company established the town of Rendville located in southern Ohio. During this time numerous small communities arose that were inhabited primarily by coal miners, many of which were African-Americans who migrated there in search of jobs. It's during this time that Rend established himself as an employer that didn't discriminate on the basis of race. Rend took a different attitude toward minorities, paying equal wages and experimenting with integration of the mines he owned, though not with full success.

Rend is also remembered for his refusal to cut wages of miners who had organized and then participated in the Hocking Valley, Ohio Coal Strike of 1884. This put him at odds with mine owners but gained him respect from the miners. His mines not only stayed open during the strike but he arranged for the deduction of 10 cents per ton from the pay of his miners to be sent to other striking miners of the region who were starving and being shut out of their homes. He joined with union leader Chris Evans of the Hocking Valley to create the Joint Conference of Miners and Mine Owners which led to the founding of the United Mine Workers of America.

Miners ready to strike in early 1900's.

Around 1890, the W.P. Rend Coal Company invested in mines in Franklin County which spurred the creation of the Rend City community. Rend was a trailblazer in every sense and his contribution to the coal mining industry and its people left a remarkable legacy that was the impetus to the naming of Rend Lake.

The W.P Rend Coal mine in Browning Township which later became Old Ben Coal No. 19 mine

Strategic Plan

The Rend Lake Conservancy District maintains an active five-year strategic plan to guide the District's activities. The key elements of the plan include:

Mission Statement/Vision

The Rend Lake Conservancy District will be the main supplier of potable water for Southern Illinois communities and will do so in a safe and cost-effective manner. In addition, the Rend Lake Conservancy District will become a premier tourist attraction for Southern Illinois.

Key Strategies

District Continue to operate and improve the District operations while

maintaining financial health and stability.

Water & Sewer Continue to operate and improve water and wastewater systems to

provide high-quality water and services while covering all costs.

Recreation Continue to operate and expand recreational facilities to provide

high-quality services while covering all costs.

Tourism Partner with area communities and counties to provide economic

development for the region.

In pursuit of these strategic goals, the Board of Trustees is updated monthly as to progress that has been made. Notable achievements in FY25 include:

District

- Securing Federal Land Access Program funding to complete phase 1 and 2 engineering for N. Gun Creek recreation area.
- Replacing all HVAC mechanical units at the Event Center, Seasons Lodge, Seasons Condos, and the clubhouse.
- Took over management of the Seasons Restaurant.
- Began participation in FEMA's national incident management program and certified all staff with training requirements.
- Remodeled the clubhouse restrooms, pro shop, and kitchen.
- Hired a GIS manager to update the district's GIS infrastructure maps.
- Enhanced all District-wide IT cybersecurity measures.
- Modernized software for lodging, golf, and accounting

- Secured Delta Regional Authority grant to fund replacement of the chlorine dioxide building.
- Began installing parallel water main to improve redundancy for the City of Mt. Vernon.
- Inspected, cleaned, and repainted various water storage tanks.
- Purchased new mowing equipment to increase efficiency at the golf course.
- Advertised the Rend Lake Golf Resort on several new media outlets to include WSIU, River Radio, and Saluki Sports Properties.
- Launched partnership with SI Now for regional economic development.
- Participated in Chambers of Commerce of Mt. Vernon, Benton/West City, West Frankfort, and Marion.
- Met with state and federal legislators to discuss the District's services and future needs.
- Joined the Illinois Public Works Mutual Aid Network to secure resources for emergency needs.
- Participated in disaster planning exercises with regional emergency management agencies.
- Negotiated new collective bargaining agreement with the International Brotherhood of Electrical Workers.

In FY26, the budget includes the necessary resources to achieve the following:

- Complete design of the chlorine dioxide building at the water treatment plant.
- Begin construction to replace the 8" watermain from West Frankfort to Thompsonville.
- Conduct golf course inspection with USGA agronomists.
- Complete construction of a new pool at Seasons Lodge.
- Replace the master water meters at Galatia and Macedonia.
- Complete raw water intake improvements at the water treatment plant.
- Replace exterior decks at the Seasons Condo building.
- Begin to develop a comprehensive plan to replace original water mains.

RLCD Staff accepting runner-up award for Illinois Rural Water Association "Water System of the Year".

WATER TREATMENT PROCESS

Where does your water come from?

Source Water

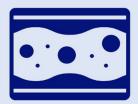

RLCD has 3 raw water pumps that take water from the 18,000 acre Rend Lake

Coagulation

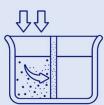

Lime added to cause particles to bind.

Flocculation

Binds small particles together to help filter

Clarification/Sedimentation

The larger particles (floc) settle in clarifier tanks Sand and carbon filters remove small particles

Disinfection

Chlorine removes bacteria

Distribution

Pumps help deliver water to homes and businesses

COMMUNITIES SERVED

The RLCD is the water supplier to numerous communities and water districts throughout a 5-county region. Wholesale customers include the following communities:

Akin Water District City of Benton

Village of Bonnie Village of Buckner
City of Cambria City of Carterville
City of Christopher Village of Colp

Village of Crainville Village of Dahlgren
City of DuQuoin Village of Energy

Village of Ewing Ewing-Ina Water Corporation

Ferges Water District City of Galatia

Greenwood Creek Nation Hamilton County Water

Hanaford Water District City of Herrin

Highway 37 North Water Hill City Water District

City of Johnston City City of Marion

City of McLeansboro Moore's Prairie Township
City of Mt. Vernon Mulkeytown Water District
Village of Pittsburg Royalton Water Department

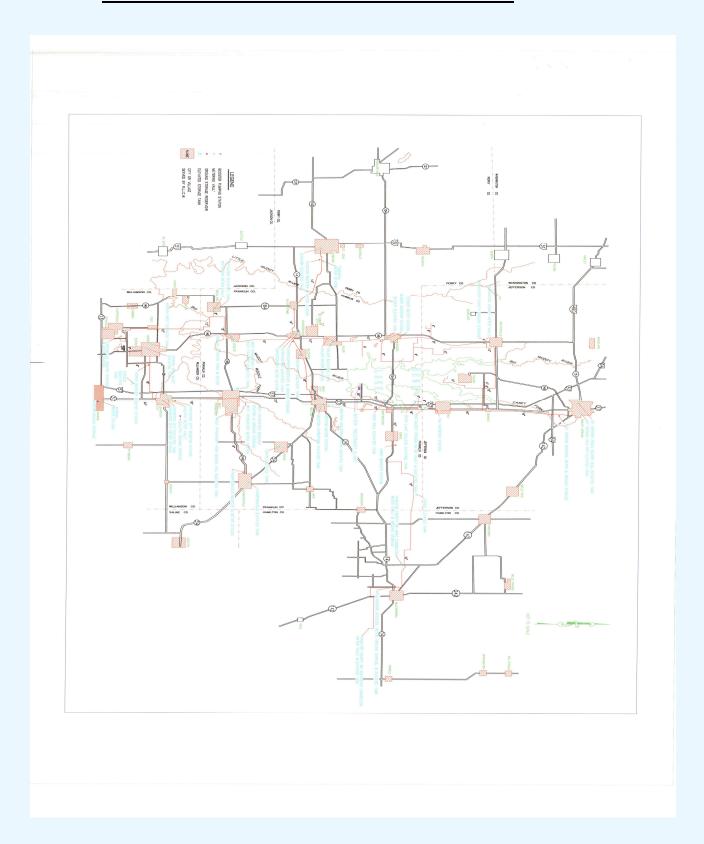

City of Sesser Village of Tamaroa

Village of Thompsonville City of Valier

SECTION II:

BUDGET PROCESSES

View from the tee box of the picturesque hole #26 par 3, one of the most memorable holes of the Rend Lake Golf Course.

March 24, 2025

Board of Trustees:

Attached is the proposed Fiscal Year 2026 Rend Lake Conservancy District (RLCD) budget for the period beginning May 1, 2025, and ending April 30, 2026. This budget message presents an overview of the budget and the overall financial condition of the RLCD and aligns with the RLCD strategic plan. The budget provides details on each of the main funds; general, water and sewer, and recreation; and department provides unique goals and specific examples of the programs and services that will be provided with the funds appropriated.

BACKGROUND

Many notable changes have occurred within RLCD in the past year to include the hiring of new outside legal counsel, Comptroller, District Engineer, and General Manager. These changes in administration have facilitated a thorough review of existing RLCD financial plans and procedures that has resulted in improvements to our financial reporting and capital planning. These include amending our purchasing policy to better align with state statutes, implementing more internal financial controls, accepting greater participation among staff in the budget development process, and producing a new budget format that we hope will provide the reader with much more context regarding the RLCD, its fiscal position, and plans. Finally, the new administration is using this opportunity to evaluate our existing infrastructure to develop long-range financial and capital plans to ensure that RLCD continues to provide excellent services for decades to come.

In preparing the FY 2026 budget, Staff based on revenue on FY25 actuals, mainly due to the Board deciding to forego a rate increase for 2025. Payroll costs amount to approximately 46% of total costs and a cost-of-living increase of 3.5% has been accounted for. The FY26 budget presents individual budgets for each of the funds to include General, Water & Sewer, Recreation, and Capital Improvement Program, as well as a Consolidated budget summary.

Notable items in the FY26 budget include revenues in excess of expenditures by \$4,577,436 for all funds. This will result in an increase in total fund balances from \$32,278,849 at the end of FY25 to a projected amount of \$36,856,285 at the end of FY26. The recreation fund is expected to have a deficit budget of (\$135,072), due mainly to the addition of staff to help better maintain the golf course. We believe that these additions will improve play and will result in a growth of business over the next few years which will ultimately translate to increased revenue. The general fund will provide a subsidy to the recreation fund to mitigate the fund deficit; this transaction is supported by the governmental accounting standards board. Finally, there are numerous capital projects that have been deferred but which need attention in order for the District to continue providing a high quality of service. The capital improvement plan budget forecasts expenditures of \$10,643,620 which is an approximate increase of approximately \$6.6 million from FY25.

We hope the Board of Trustees is proud of the progress that has been made in just the past year. In August, 2024 the Board approved a budget amendment that more accurately reflects the capital projects and administrative reimbursements that will be completed in the current fiscal year. Those projects include:

- \$500,000 contract to install a 48" bypass water main at the water treatment plant to help with redundancy.
- \$1.2 million contract to design and build a new chlorine dioxide building that will be located within
 the water plant perimeter. This project was awarded a Delta Regional Authority grant of \$922,000.
- \$2.4 million parallel 18" water main project to provide redundancy to Mt. Vernon.
- \$1 million in HVAC replacements to the Seasons Lodges and Condominiums.
- Inspecting, cleaning, and repainting water storage tanks in Frisco and Christopher.
- Replacing the master water meters at Galatia and McLeansboro.
- Golf course clubhouse renovations to include HVAC replacements, new kitchen coolers, flooring, pro-shop upgrades, and remodeling of both public restrooms.
- \$650,000 to replace the HVAC system at the Event Center.
- New mowers to better maintain the golf course.

We expect this momentum to continue in FY 2026 as the following projects will be initiated that will have both immediate and long-term positive impacts on the RLCD:

- Design and construction to replace the 8" water main that extends from West Frankfort to Thompsonville.
- Replacing the lift stations at the Big Muddy Prison and IDOT Rest Area on Interstate 57.
- Replacing the 30-year old pool at Seasons Lodge.
- Begin Phase 1 and 2 engineering for a possible new recreation area at North Gun Creek.
- Renovating all exterior decks at Seasons Condos.
- Begin developing an asset management plan to address replacement of aging infrastructure.

Improvements were also made to administrative processes which we expect will result in greater efficiencies while also enhancing financial controls. Those include updating the RLCD purchasing policy to align with state statutes, updating the District's financial policies, implementing greater controls between managers, improving the purchase order policy to provide greater accountability, and developing internal documentation to improve accounting for budget changes. Collectively these improvements, along with an expanded budgeting format, provide greater accountability for staff and increased oversight for the Board of Trustees.

Finally, cybersecurity measures were enhanced to better defend the District against cyber-attacks. Public agencies, in particular water utilities, have increasingly been the targets of cyber and ransom attacks that have the potential to impose financial harm to water districts and their customers. As such, a thorough review of District IT policies was conducted in September, 2024 and subsequently, several security enhancements were completed. Those include installing updated servers, replacing the existing firewall, implementing endpoint detection response antitivirus software, and developing a modern set of IT policies and procedures for RLCD employees. Together, these changes make the District less vulnerable to future cyber-attacks.

ACKNOWLEDGEMENTS

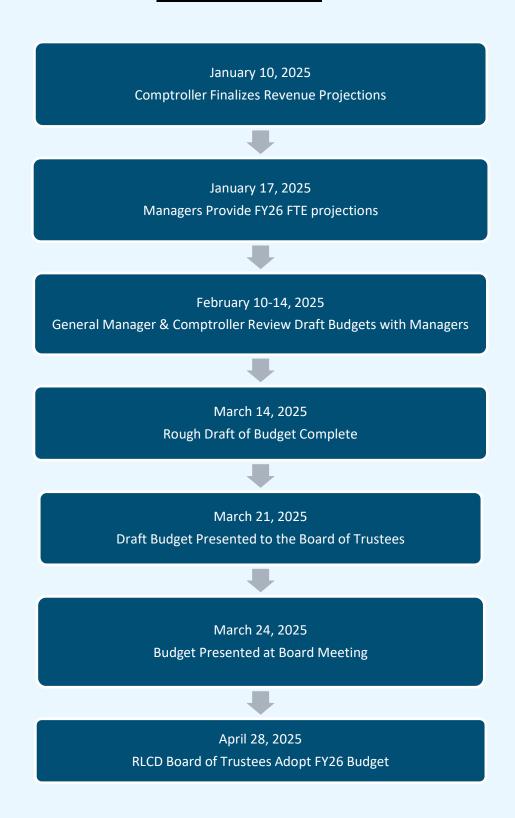

The preparation of the FY 2026 Budget is a team effort that requires the participation of all departments at the RLCD. Staff carefully considered projects to ensure that they align with the District's strategic plan which has produced the FY 2026 budget which addresses many of the Board's goals while also remaining fiscally responsible.

Special thanks and recognition go to Comptroller Judith Markham for improving financial transparency and reporting in this budget, and to District Engineer Sean Pickford for his help with organizing our 5-year CIP.

Respectfully submitted,

Gary Williams General Manager

Budget Calendar

Financial Policies

ANNUAL BUDGET

A. PURPOSE

The annual budget is the single most important financial document approved by the Board. It is the primary oversight tool by which the Board exercises plenary control of the District. It shall contain an estimate of all revenues and shall govern expenditures for the given fiscal year. Budgeted expenditures for each fund shall not exceed estimated revenue, including loan proceeds, plus beginning fund balance. The fiscal year for the District begins on May 1st and ends on April 30th of the succeeding calendar year.

B. BUDGET OFFICER

The General Manager, or Assistant General Manager as provided for in the job description for that position, shall function as the Budget Officer with the General Manager being responsible for the total budget expenditures.

C. FORMAT

The budget shall be divided into the funds established by the District. Funds may be further divided into departments based on the activities of the fund.

The District will have a fiscal year budget for each fund and the budget will include beginning fund balance, budgeted revenues by line item, budgeted expenditures by line item and ending fund balance. The budget will be also be allocated by line item to each month of the fiscal year.

All taxes generated by the General Corporate levy will be placed in the income section of the general fund. Taxes collected from the IMRF and FICA levies will be allocated to each fund as specified annually by the Board of Trustees.

D. ADHERENCE TO BUDGET

Budgeted expenditures are to be the primary guide for the expenditure of funds by the Budget Officer. He/she may not deviate from any budget expenditure line item, except for utilities, by more than ten percent or \$10,000.00, whichever is greater unless an emergency is declared by the President of the Board. The Board may change line items within a fund without amending the budget as long as the total budget is not increased. In no case may the Budget Officer approve expenditures that exceed the total budget for a fund without first seeking an amendment to the budget.

E. ALLOWABLE FUND TRANSFERS

Revenue from the general corporate fund may be permanently transferred to or loaned to any other fund maintained by the District with a simple majority vote of the Board.

F. TIMELINE FOR BUDGET PREPARATION

In so far as possible, the following timeline shall be utilized for the preparation and adoption of the annual budget:

- Last day of February: Managers submit suggested budget for their department and/or Fund to the Budget Officer. Budget Officer reviews and adjusts budgeted expenditures and revenues for the coming fiscal year.
- At a Board meeting in March: Budget Officer shares tentative budget with the Board. Board approves, rejects, modifies, or accepts for public inspection the tentative budget. Tentative budget is open for public inspection at the Administration Office at least fifteen days prior to the public hearing.
- At a Board meeting in April: A public hearing shall precede the Board meeting in which
 the general public may make any comments or objections. During the meeting of the
 Board, the final budget shall be approved reflecting changes based on the input from
 the Board, the managers, and the public.

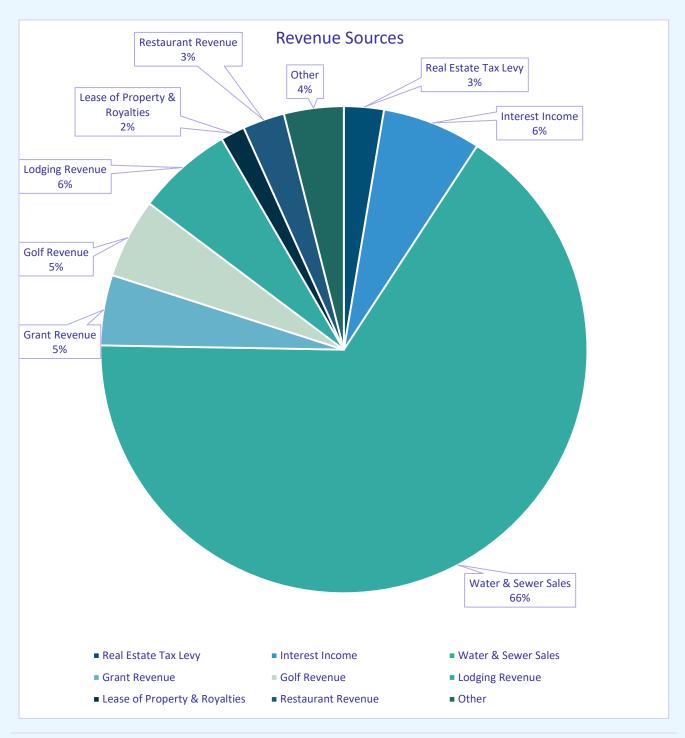

The approved budget shall be maintained for public inspection at the Conservancy District office at any time during regular office hours.

G. PROVISIONS FOR AMENDMENT OF THE BUDGET

The budget may be amended at any time during the fiscal year or within sixty days after the close of the fiscal year. Amendments made before the end of the fiscal year require posting and opportunity for public comment in the same way the original budget was adopted. Amendments made after the closing of the fiscal year require only Board approval.

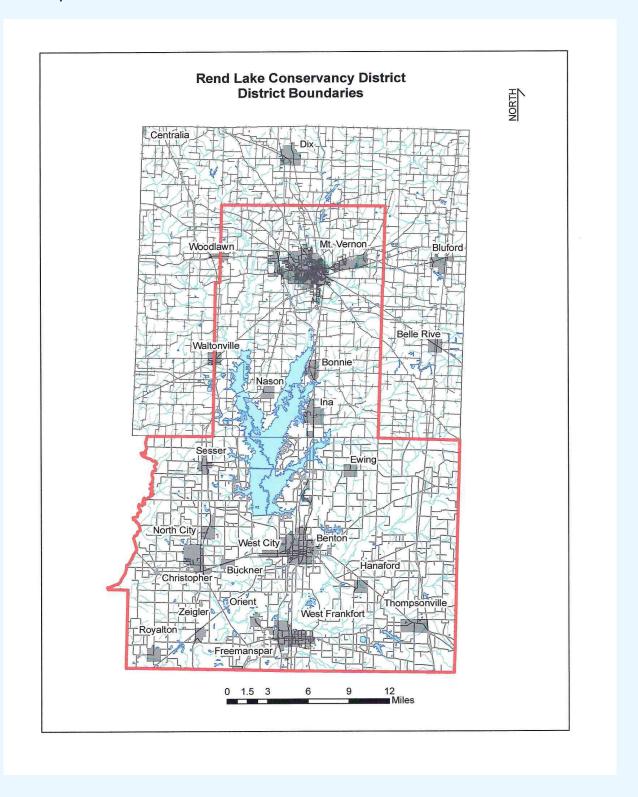

Revenue Sources

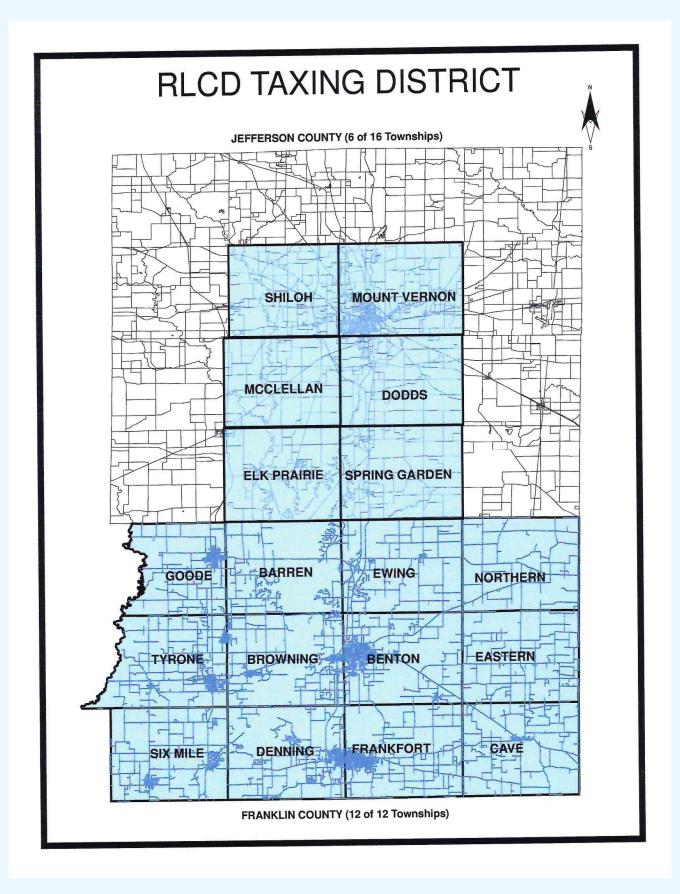

The RLCD generates revenue from several sources to include property tax revenue, water user fees, leases and royalties, and recreation fees from golf, restaurant, and lodging. A breakdown of the revenue sources is provided below. Total Revenue for FY26 is projected to be \$19,745,067.

Real Estate Tax Levy

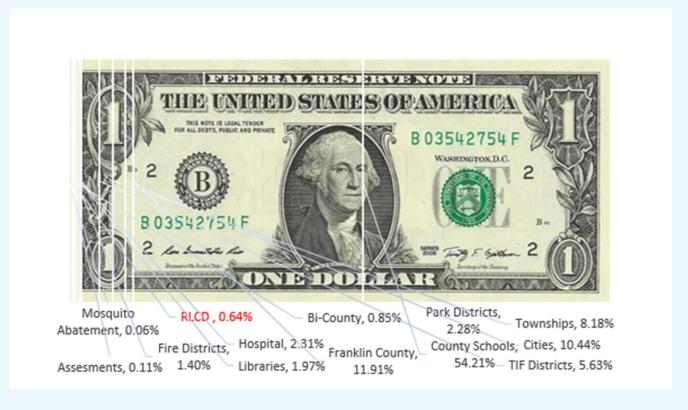

The RLCD was established in 1955 as a taxing unit of government that has the authority to levy real estate taxes on taxable property located within the district's boundary. The following maps display the taxing areas which include all Franklin County townships and six townships located in Jefferson County.

SECTION III:

FINANCIALS & FY26 BUDGET

General Fund

The general fund is the primary operating fund of a government, accounting for all financial resources not specifically designated for or reported in another fund, serving as a "catch-all" for general government activities. The general fund accounts for RLCD administration which includes the General Manager, Human Resources Director, District Engineer, Comptroller, and Building & Construction Maintenance. The general fund's primary revenue sources are real estate tax levy proceeds, replacement taxes, and investment income.

In FY26 there are 16 employees in administrative, professional, engineering, managerial, and maintenance positions. Non-managerial employees are represented by a collective bargaining agreement with the IBEW Local #702.

Water and Sewer Fund

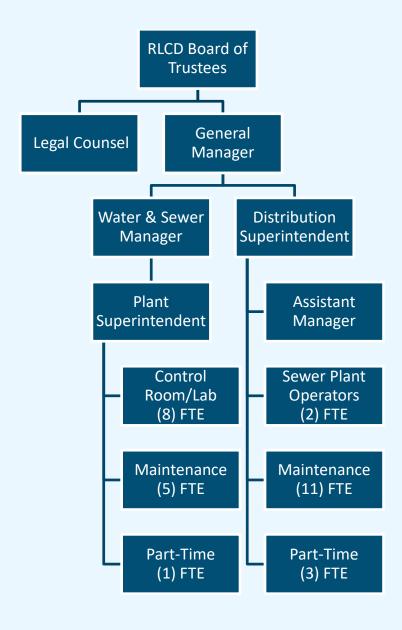

The water and sewer and fund is a proprietary enterprise fund that operates similarly to a private business which means that the fund is self-supporting and not reliant on revenues from other funds. The primary revenues to the water and sewer fund are derived from water fees that are generated from wholesale accounts as well as over 1,300 retail customers. In addition, some interest income is generated via fund balance that currently exist.

The primary expenses for this fund are from employee wages and other operational expenses that are required to maintain a 27 million gpd water treatment plant and a water distribution system that includes over 200 miles of water main and supporting infrastructure to include booster pump stations, valves, meter vaults, and other equipment.

In FY26 there are 34 employees assigned to the water and sewer fund which include managers, Class A operators, maintenance workers, control room and laboratory operators, sewer plant workers, and part-time employees. Non-managerial staff are represented by the IBEW Local #702 and a collective bargaining agreement that was amended in 2024 and expires in 2028.

Recreation Fund

The recreation fund is a special revenue fund that accounts for all revenues derived from, and all related costs incurred, in connection with the various recreation services offered by RLCD.

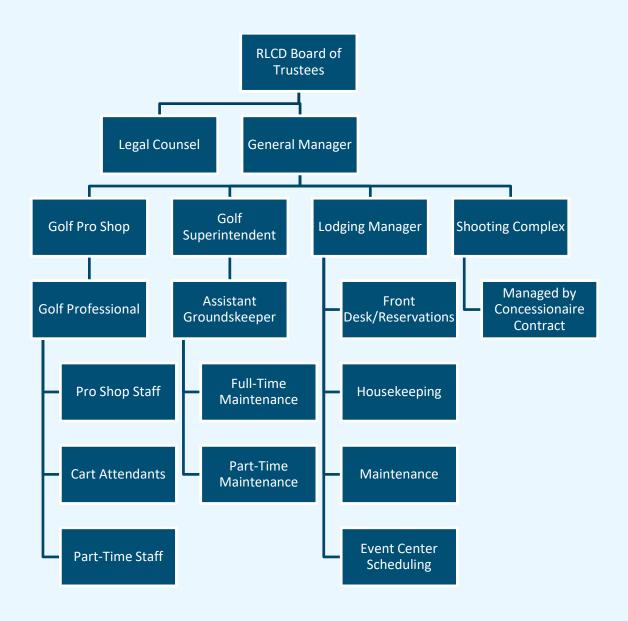

Recreation offerings include golf, lodging, and restaurant.

The primary expenses for this fund are from employee wages and other operational expenses that are required to maintain a 27-hole golf course; lodging properties that include 46 hotel rooms, 24 condominiums, and 4 cabins; an event center; and Seasons Restaurant.

In FY26 there are 20 employees assigned to the recreation fund which includes managers, golf professionals, groundskeepers, equipment and building maintenance, waitresses, cooks, reservation clerks, housekeeping, and part-time employees. Non-managerial golf course maintenance staff are represented by the IBEW Local #702 and a collective bargaining agreement that was amended in 2024 and expires in 2028. All other non-managerial staff are non-bargaining unit personnel.

CAPITAL IMPROVEMENT PROJECTS DESCRIPTIONS

PROJECT NUMBER:	24-21							
PROJECT DESCRIPTION:	North Gun Cr	eek Resort De	velopment					
ROM COST ESTIMATE:	\$1.2 million							
ROM PROJECT TIMELINE:	FY2026-2028							
PROJECT LOCATION:	N. Gun Creek							
PROJECT JUSTIFICATION:	RLCD has been awarded \$350,000 in federal FLAP funds for phase 1 and 2							

PROJECT NUMBER:	26-23						
PROJECT DESCRIPTION:	Administratio	n Building Re	model				
ROM COST ESTIMATE:	\$ 30,000						
ROM PROJECT TIMELINE:	FY-2026						
PROJECT LOCATION:	The administration building is 60 years old and is in need of some maintenance to include new HVAC, interior office modifications, and energy efficient upgrades.						

PROJECT NUMBER:	24-03						
PROJECT DESCRIPTION:	West Frankfo	rt Watermain	Replacement P	hase 02			
ROM COST ESTIMATE:	\$ 2,600,000						
ROM PROJECT TIMELINE:	FY2025-FY20	26					
PROJECT LOCATION:	Along Ninth Street and east of West Frankfort. South along Green Leaf Lane in West Frankfort.						
PROJECT JUSTIFICATION:	Frankfort. See	The existing 8 inch transite watermain has experienced multple breaks in West Frankfort. Sections have already been replaced. This phase will replace all of the remaining watermain in West Frankfort along IL-149 to Baseline Road					

PROJECT NUMBER:	15-11							
PROJECT DESCRIPTION:	Chlorine Diox	ide System Re	placement					
ROM COST ESTIMATE:	\$ 1,110,000							
ROM PROJECT TIMELINE:	FY2024-2026							
PROJECT LOCATION:	Franklin Cour	Franklin County Illinois						
PROJECT JUSTIFICATION:	a permanent r hazardous sit	eplacement. The nent plant which	The temporary	system is near ill be located w	failure and co vithin the fence	ed area of the		

PROJECT NUMBER:	9-02						
PROJECT DESCRIPTION:	Vater Infrastructure Reliability Project						
ROM COST ESTIMATE:	\$2,500,000						
ROM PROJECT TIMELINE:	Y2024-2026						
PROJECT LOCATION:	efferson County Illinois						
	he scope of the project includes the addition of a 18" watermain arallel the existing 16" watermain that serves Mt Vernon Illinoi arm Road to the Districts existing booster pump station.						

PROJECT NUMBER:	24-18					
PROJECT DESCRIPTION:	Frisco Elevato	ed Tank & Chr	istopher Grou	nd Storage Ta	nks Rehab	
ROM COST ESTIMATE:	\$ 2,017,000

PROJECT NUMBER:	20.05					
PROJECT DESCRIPTION:		take Improven	nents		<u> </u>	
ROM COST ESTIMATE:	\$ 2,700,000					
ROM PROJECT TIMELINE:	FY2024-2026					
PROJECT LOCATION:	Franklin Coun	ty Illinois				
PROJECT JUSTIFICATION:	The piping is additional wo will replace the to be able the	The raw water intake at the water treatment plant is a critical single point of failure. The piping is original to the plant and has been rehabilitated but is in need of additional work. The existing isolation valves are in a distressed state. This project will replace the piping, valves, walking platform, and add bypass pumping location to be able the bypass the station. In addition, up flow pumps or air system will be installed to combat frazzle ice conditions.				
PROJECT NUMBER:	20-13					
PROJECT DESCRIPTION:	Backwash Lag	goon Retaining	g Wall			
ROM COST ESTIMATE:	\$ 170,000					
ROM PROJECT TIMELINE:	FY2024-2026					
PROJECT LOCATION:	Franklin Coun	Franklin County Illinois				
PROJECT JUSTIFICATION:	failures during	The backwash lagoon located at the water treatment plant has experienced multiple ailures during the life of the facility. This could create a hazardous condition due to the fact that there is traveled road surface at the top of the lagoon.				

PROJECT NUMBER:	24-06						
PROJECT DESCRIPTION:	WTP Electrica	l Upgrade					
ROM COST ESTIMATE:	\$ 600,000						
ROM PROJECT TIMELINE:	FY2025-FY20	26					
PROJECT LOCATION:	Water Treatme	Vater Treatment Plant					
PROJECT JUSTIFICATION:	The existing e replaced that i consists of a s	s no longer in	operation. In	addition there	e are transform	ers that	

PROJECT NUMBER:	24-09
PROJECT DESCRIPTION:	WTP HVAC System Evaluation
ROM COST ESTIMATE:	\$ 1,200,000
ROM PROJECT TIMELINE:	FY2025-FY2026
PROJECT LOCATION:	Water Treatment Plant
PROJECT JUSTIFICATION:	The Water Treatment Plant HVAC system has failed multiple time in regards to motor control room that controls the high service pumps. This project will evaluate the whole plant system and recommend changes to the system that will address this issue along with optimzing the rest of the plant's HVAC system

PROJECT NUMBER:	24-14							
PROJECT DESCRIPTION:	Planning Study							
ROM COST ESTIMATE:	\$ 150,000							
ROM PROJECT TIMELINE:	FY2025-FY2026							
PROJECT LOCATION:	Water Treatment Plant							
PROJECT JUSTIFICATION:	The existing water treatment plant is near the end of its expected life. This study will evaluate the existing facilty and make a recommendation of replacing, upgrading or both. In addition redundancy will evaluated.							

PROJECT NUMBER:	24-25							
PROJECT DESCRIPTION:	Chlorine Ana	lyzer Addition						
ROM COST ESTIMATE:	\$ 115,000							
ROM PROJECT TIMELINE:	FY2026							
PROJECT LOCATION:	Various locations among the District's Intercity Water System							
	To provide th	e safest water	and to ensure	that the Distr	ict is meeting a	ıll current		
PROJECT JUSTIFICATION:	State and Fed	State and Fed regs, it is desired to install additional chlorine analyzers at various						
	existing RLCI	pump station	is and meter st	tation.				

PROJECT NUMBER:	26-16						
PROJECT DESCRIPTION:	900 Mhz Radio Replacement						
ROM COST ESTIMATE:	\$ 75,000						
ROM PROJECT TIMELINE:	FY2026						
PROJECT LOCATION:	Various Locations						
PROJECT JUSTIFICATION:	This project will upgrade the SCADA system with improved communication.						

PROJECT NUMBER:	26-18						
PROJECT DESCRIPTION:	Auto Flusher Installation Program						
ROM COST ESTIMATE:	\$ 50,000						
ROM PROJECT TIMELINE:	FY2026						
PROJECT LOCATION:	Various Locations						
PROJECT JUSTIFICATION:	In some areas water main have dead-end locations where water needs to be manually flushed occassionally. This project will provide an automatic flushing feature which will eliminate the need to manually flush.						

PROJECT NUMBER:	4-28							
PROJECT DESCRIPTION:	ondo Rehab							
ROM COST ESTIMATE:	50,000							
ROM PROJECT TIMELINE:	Y2026-FY2027							
PROJECT LOCATION:	Seasons Condos							
PROJECT JUSTIFICATION:	The Condos need various exterior rehab performed including but not limited to replacing the shutters and new maintenance free decks.

<u>Glossary</u>

Accrual Basis of Accounting – The basis of accounting under which transactions are recognized when they occur, regardless of timing of cash receipts and disbursements.

Adopted Budget - The official annual budget as approved by the Board of Trustees.

Amended Budget – The adopted budget as amended by the Board of Trustees through the course of the fiscal year.

Assets – Resources owned or held by the District that have monetary value.

Balanced Budget - A budget in which planned expenditures do not exceed planned funds available.

Budget – A financial plan, for a specified period, of operations that matches all planned revenues and expenditures with the services provided to the customers of the RLCD.

Capital Budget – A budget which focuses on capital projects and equipment to implement the Capital Improvement Program.

Capital Expense – An acquisition or an improvement (as distinguished from a repair) that will have a life of more than one year and costs more than \$10,000.

Capital Improvement Program – A plan for the capital improvements to be implemented each year over a number of years to meet capital needs arising from the assessment of long-term needs. Is sets forth the estimated cost for each project and specifies the resources required to finance the projected expenditures.

Capital Improvement Project – The budget unit to group activities and costs necessary to implement specific capital improvement and/or acquisition. A project can include the construction, acquisition, expansion, replacement, or rehabilitation of a physical facility or improvement. Project often include planning and design, land acquisition, and project management costs related to such facilities and improvements.

Department – A major organization group of the District with overall management responsibility for an operation or a group of related operations within a functional area.

Encumbrance – The commitment of appropriated funds to purchase an item or service.

Expenditures/Expenses – Decreases in net total assets. Expenses represent the total cost of operations during a period regardless of the timing of related expenditures.

Fiscal Year – A 12-month period to which the annual operating budget applies and at the end of which an entity determines it financial position, the results of its operations, and adopts a budget for the coming year. The District's fiscal year is from May 1 to April 30.

Fixed Assets – Equipment costing \$10,000 or more with a useful life longer than one year, and not qualifying as a capital improvement project. Includes automotive equipment, office equipment, office furniture, acquisitions, landscaping improvement, etc.

Fund Balance – The equity (assets minus liabilities) of governmental fund and fiduciary fund types.

Generally Accepted Accounting Principles (GAAP) – Uniform minimum standards of, and guidelines for, financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompasses the conventions, rules, and procedures necessary to define accepted accounting practices at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures.

Infrastructure – The accumulated piping, meters, valves, pumps, and other appurtenances.

Interest Earnings – The earnings from available funds invested during the year in U.S. Treasury Bonds, government agencies, and Certificates of Deposit.

Liabilities – Present obligations of the District arising from past events.

Program – An activity or set of activities that provides a particular service to the citizens.

Public Hearing – The portions of open meetings held to present evidence and provide information on both sides of an issue.

Reserve Fund – Prudent fiscal management tools with flexibility to continually adapt to change, ensure continued operational solvency, and preserve adequate levels of services.

Resolution – An order of a legislative body requiring less formality than an ordinance or statute.

Revenue – Moneys that the District receives as income such as payments for water consumption, shared revenues, and interest income.
